## **Gold Seal Quality Care Accrediting Standards for Child Care Facilities**

The following standards must be substantially met or exceeded by the accreditation standards of the entity seeking approval as a Gold Seal Quality Care Accrediting Association. The applicant for Gold Seal Quality Care Accrediting Association will be required to use this form to provide a crosswalk aligning its standards with the standards below. The applicant's standards need not be organized in the same manner as the standards below, but must be completed in a fashion that permits the Division of Early Learning (DEL) to perform a line-by-line comparison of standards, whenever practicable. It is the responsibility of the applicant to ensure that the crosswalk is clear and concise in its presentation. If a line-by-line comparison is not practicable, the DEL will review the applicant's standards using the following grouping and sub-grouping of standards.

Please note that an applying accrediting association must receive an overall minimum score of 85% pursuant to Rule 6M-10.002, Florida Administrative Code, for approval as a Gold Seal Quality Care Accrediting Association and must ensure that each child care provider accredited under the association's accreditation standards also meets an overall minimum score of 85%.

The text in the left column(s) below is the Gold Seal Quality Care criteria standards. The right column has been left blank for use as a crosswalk, if the accrediting association chooses to use this format.

	STANDARD A.: Validation Process	
	Gold Seal Criteria	Crosswalk or Comments for Review
A1	The program will be subject to visit(s) by validator(s) representing the accrediting association. The program will be evaluated based on standards outlined below. The program must receive a satisfactory evaluation. Onsite visits, excluding the initial visit, are unannounced visits. Provide evidence that the process for accreditation has, at a minimum, all of the following components:	
	<ul> <li>Clearly defined prerequisites that a child care provider must meet before beginning the accreditation process.</li> <li>Accreditation may not be granted to a child care facility before the site is operational and is attended by children.</li> </ul>	
	<ul> <li>Procedures for completion of a self-study and comprehensive onsite verification process for each classroom that documents compliance with accrediting standards.</li> </ul>	
	c. A training process for accreditation verifiers to ensure inter-rater reliability.	
	d. Ongoing compliance procedures that include requiring each accredited child care facility, large family child care home, and family day care home to file an annual report with the accrediting association and risk-based, onsite auditing protocols for accredited child care facilities, large family child care homes, and family day care homes.	
	e. Procedures for the revocation of accreditation due to failure to maintain accrediting standards as evidenced by subsubparagraph d. or any other relevant information received by the accrediting association.	
	f. Accreditation renewal procedures that include an onsite verification occurring at least every 5 years.	
	g. A process for verifying continued accreditation compliance in the event of a transfer of ownership of facilities.	
	h. A process to communicate issues that arise during the accreditation period with governmental entities that have a vested interest in the Gold Seal Quality Care Program, including the Department of Education, the Department of

F5	Teachers use curriculum in all content and developmental areas as a flexible framework for teaching and to support the development of daily plans and learning experiences.		
	Curriculum/Teaching Materials		
	Gold Seal Criteria	Crosswalk or Comments for Review	
F6	The program demonstrates sufficient materials and equipment that are rich in variety to sustain curriculum plans. Materials and equipment are available in sufficient quantities to occupy each child in activities that meet his or her interests.		
F7	Materials and equipment used facilitate focused individual and peer play/learning.		
F8	Materials and equipment reflect and respect society's diversity and the cultures of the families being served.		
F9	Staff rotate and adapt materials on a reasonable basis to promote learning and extend children's play opportunities.		
F10	Teachers foster cognitive learning by providing opportunities and materials to encourage infants/toddlers to discover how they can make things happen and to solve simple problems. Children are provided equipment to engage in varied opportunities for fine and large motor development.		
F11	All children are provided materials to experience varied opportunities of the key principles of the following:  a. Art, music, dramatic play, and dance in ways that reflect cultural diversity.		
	<ul> <li>The principles of math, such as building understanding of numbers; number names; the relationship of numbers to object quantities and to symbols; using numerical symbols; and to explore operations on quantities, such as adding, subtraction, and dividing into equal and unequal subsets.</li> </ul>		
	c. Science.		
	<ul> <li>d. The physical characteristics of their local environment, and how people positively and negatively affect their environment.</li> </ul>		
	Daily Schedule		
	Gold Seal Criteria	Crosswalk or Comments for Review	
F12	The program's daily schedule provides a balance of activities in consideration of the child's total daily experience. This includes:  a. All age groups (including infants).  b. Daily outside play and opportunities for gross motor development.		
	<ul><li>c. Daily quiet and active play.</li><li>d. Activities that incorporate large and small muscle groups.</li></ul>		
	e. Daily group activities.  f. Child-initiated and teacher-initiated activities.		
	<ul><li>g. Age-appropriate learning activities.</li><li>h. Activity that provides choices.</li></ul>		
	, '		
	i. Activity that allows for spontaneity.		
	Lesson Plans and Implementation  Gold Seal Criteria  Crosswalk or Comments for Review		
	Gold Seal Criteria	Closswalk of Collinelits for Review	

F13	Teachers use:	
	a. The needs and interests of infants to influence schedules, routines, and learning experiences. Infants who show	
	interest or pleasure in an activity are encouraged and supported in prolonging that activity.	
	b. Children's interest in and curiosity about the world to engage them with new content and developmental skills,	
	including self-help activities that promote competency and mastery.	
1	c. Their knowledge of individual children to modify strategies and materials to enhance children's learning.	
	d. The child's routine to include tasks for which the children take responsibility, according to their ability, to give	
	children a sense of self-reliance.	
	e. Environmental design/modifications, schedules and activity modifications, adult or peer support, effective	
	transitions, engaging activities, and other teaching strategies to prevent challenging or disruptive behaviors and	
	support the child's appropriate behavior.	
F14	Teachers demonstrate and use their knowledge of content and developmental areas, and of children's social relationships,	
	interests, ideas, and skills in their lesson plans by:	
	a. Creating experiences that engage children in purposeful and meaningful learning related to key curriculum	
	<ul><li>concepts.</li><li>b. Posing problems and asking questions that stimulate children's thinking.</li></ul>	
	c. Guiding children in acquiring specific skills and explicitly teaching those skills to promote children's engagement	
	and learning.	
	d. Helping children express their ideas and build on the meaning of their experiences.	
	e. Helping children identify and use prior knowledge, and providing experiences that extend and challenge children's	
	current understandings.	
	f. Having and using a variety of teaching strategies that include a broad range of approaches and responses.	
	g. Tailoring learning opportunities for groups and individuals.	
	h. Incorporating indoor and outdoor activities.	
	i. Planning for children to revisit experiences and materials over periods of days, weeks, and months, and adjusting	
	challenges as children gain competence and understanding, learn and acquire new skills.	
F15	Teachers' lesson plans are reviewed weekly by the director and/or administration.	
	Inclusion	
	Gold Seal Criteria	Crosswalk or Comments for Review
F16	The program is designed to be inclusive of all children in keeping with the provisions of the Americans with Disabilities Act,	
	and include children with identified disabilities and special learning and developmental needs. Materials and equipment used	
	to implement the curriculum should accommodate children's special needs.	
F17	When children with special needs enroll, each child has an individual program plan, each child is professionally evaluated,	
	the program has access to a referral system, and reviews of each child's progress are done using a team concept.	
	Child Assessment	
	Gold Seal Criteria	Crosswalk or Comments for Review

F18	Teachers use multiple sources to informally and formally assess each child's development for future learning opportunities.  The ongoing assessment process should be used to:  a. Identify what children have learned.  b. Identify any possible learning hindrances and disabilities.	
	-	
	d. Foster each child's curiosity, extend the child's engagement, and support self-initiated learning.	
	e. Communicate each child's progress to parents, including both in and out of teacher/parent conferences.	
	STANDARD G.: Learning Environment	
	Gold Seal Criteria	Crosswalk or Comments for Review
G1	A minimum of 35 square feet of usable space per child is used in each primary indoor activity area.	
G2	Each room provides separate learning "areas" that offer a variety of experiences and learning opportunities. Space may be arranged so children can work individually, in small groups, or in a large group. Classroom areas are set up so that traffic patterns do not interfere with activities. The program has taken measures in all rooms occupied by children to control noise levels so normal conversation can be heard without raising one's voice.	
G3	Classroom areas are made comfortable with the use of soft furniture, pillows, rugs, etc. Staff organizes and groups materials on low, open shelves to encourage use by children.	
G4	Adequate lighting and ventilation are employed in every room. Natural light is available in some of the indoor areas occupied by children during the course of the day.	
G5	Teachers create classroom displays of children's recent work that help children reflect on and extend their learning. Displays are at children's eye level.	
G6	Use of electronic media (videos, computer games, etc.) is limited to educational content suitable for the developmental level of the child and only on an occasional or intermittent basis, and not used at all for children under 2 years old.	
G7	Children of all ages have daily opportunities for outdoor play (when weather, air quality, or environmental safety conditions do not pose a health risk). When outdoor opportunities for large-motor activities are not possible because of conditions, the program provides similar activities inside.	
G8	Outdoor play areas are designed with equipment that is age and developmentally appropriate, and located in clearly defined spaces with semi-private areas where children can play alone or in small groups. Outdoor play areas will accommodate or facilitate:	
	a. Motor experiences such as running, climbing, balancing, riding, jumping, crawling, scooting or swinging.	
	b. Activities such as dramatic play, block building, manipulative play, or art activities.	
	c. Exploration of the natural environment, including a variety of natural and manufactured surfaces, and areas with	
	natural materials such as nonpoisonous plants, shrubs, and trees.	
	STANDARD H.: Social Development	
	Gold Seal Criteria	Crosswalk or Comments for Review
H1	Children have varied opportunities to recognize and name their own and others' feelings, and are given varied opportunities to learn the skills needed to regulate their emotions, behavior, and attention. Children have varied opportunities to learn to understand, empathize with, and take into account other people's perspectives.	

H2	Children have varied opportunities to develop skills for entering into social groups by interacting positively, respectfully, and cooperatively with others; developing friendships; learning to help, and learning from and with one another; resolving conflicts in constructive ways and other pro-social behavior.	
H3	Children are provided opportunities and materials to foster positive identity and an emerging sense of self and others by learning about the community in which they live, and engaging in discussions about fairness, friendship, responsibility, authority, and differences.	
H4	Children have varied opportunities to engage throughout the day with teaching staff who are attentive and responsive to them, facilitate their social competence, and facilitate their ability to learn through interacting with others.	
H5	Children have opportunities to engage in classroom experiences with members of their families.	
	STANDARD I.: Literacy Support	
	Gold Seal Criteria	Crosswalk or Comments for Review
I1	Children's language development is promoted through songs, stories, books and games. Children have varied opportunities to be read to regularly in individualized ways including one-to-one or in small groups (2-6 children).	
I2	Children have varied opportunities to develop competence in verbal and nonverbal communication by responding to questions; communicating needs, thoughts, and experiences; and describing things and events.	
13	Children have multiple and varied opportunities to write, to develop phonological awareness, and to understand spoken language by the utilization of pictures, familiar objects, body language, and physical cues.

J3	Documentary evidence, available on site, indicates that the building has been assessed for lead, radon, radiation, asbestos, fiberglass, or any other hazard from friable material. Evidence exists that the program has taken remedial or containment action to prevent exposure to children and adults, if warranted by the assessment.	
J4	Fully working fire extinguishers and fire alarms are installed in each classroom and are tagged and serviced annually.	
	Smoke detectors, fire alarms, and carbon monoxide detectors are tested monthly, and a written log of annual service and	
	testing dates and battery changes is maintained and available.	
J5	Cleaning materials, detergents, aerosol cans, health and beauty aids, and other toxic materials are stored in their original	
	labeled containers and used according to the manufacturer's instructions and purpose. All art and craft materials used in the	
	program are non-toxic. No paint containing lead in excess of 0.06% is used in areas accessible to children.	
J6	The program has written procedures to protect children and adults from environmental hazards, such as air pollution, lead,	
	and asbestos, according to public health requirements.	
J7	Electrical outlets are covered.	
J8	Indoor equipment for large-motor activities meets national safety standards and is supervised at the same level as outdoor	
	equipment.	
J9	At least one (1) staff member who has a certificate showing satisfactory completion of pediatric CPR and first-aid training,	
	including managing a blocked airway and providing rescue breathing for infants and children, is always present with each	
	group of children.

	<ul> <li>All pieces of playground equipment are free of sharp edges, protruding parts, weaknesses, and flaws in material construction.</li> </ul>	
J17	When climbers, climbing gyms, slides, and other play units are part of the outdoor environment, the program provides safety surfacing that is rated and installed in the fall zone as recommended by the manufacturer for the fall height of the play equipment. Furnishings such as lofts are constructed to prevent falls (e.g., with appropriate barriers), or safety surfacing is installed in the fall zone.	
J18	Sandboxes that are part of a program facility are constructed to allow for drainage, are covered when not in use, and are cleaned of foreign matter on a regular basis. Staff replaces sand as often as necessary.	
J19	The program maintains facilities so they are free from harmful animals, insect pests, and poisonous plants: <ul> <li>a. Poisonous or potentially harmful plants are not in areas accessible to children.</li> <li>b. Pesticides and herbicides, if used, are applied according to the manufacturer's instructions when children are not at the facility and in a manner that prevents skin contact, inhalation, and other exposure to children.</li> <li>c. The program uses the techniques known as Integrated Pest Management (IPM) so the least hazardous means are</li> </ul>	
	used to control pests and unwanted vegetation.	
J20	The staff are capable of viewing all of the children on the entire playground.	
J21	To protect against cold, heat, sun injury, and insect-borne disease, parents are required to provide their children with at least one change of clothing suitable for daily outdoor play.	
	Personal Hygiene and Best Practices	
	Gold Seal Criteria	Crosswalk or Comments for Review
J22	Proper hand-washing procedures are followed by adults and children, and universal precautions are practiced at all times:	
	a. Children and adults wash their hands after diapering or using the toilet, handling body fluids, playing in fluid play areas, and before meals and snacks.  Adults and their hands after diapering or using the toilet, handling body fluids, playing in fluid play areas, and before meals and snacks.

	Nutrition and Food Safety	
	Gold Seal Criteria	Crosswalk or Comments for Review
J28	The program prepares written daily, weekly, and/or monthly menus that:	
	a. Are posted where families can see them.	
	b. Are made available to families.	
	c. Are kept on file for review by certified inspectors and/or the accrediting association.	
	d. Illustrate that meals and snacks are at regularly established times.	
	e. Illustrate that meals and snacks are at least two (2) hours apart but not more than three (3) hours apart.	
J29	The program participates in the United States Department of Agriculture's Child and Adult Care Food Program (USDA's CACFP), OR at least two (2) times a year, a registered dietitian or pediatric public health nutritionist evaluates the provider's menus for: <ul> <li>Nutritional content;</li> <li>Portion sizes, and nationally recommended limits on juice, sugar, sodium, and saturated fats;</li> <li>Food service operations;</li> <li>Food safety (staff discard foods with expired dates, etc.);</li> </ul>	
	<ul> <li>Special feeding needs to be met by the program; and</li> <li>Procedures used for food brought from home.</li> <li>The program documents compliance and any corrections it has made according to the recommendations of the program's health consultant, nutrition consultant, or a sanitarian that reflect consideration of federal and other applicable food safety standards.</li> </ul>	
J30	Clean, sanitary drinking water is made available to children throughout the day (infants who are fed only breast milk or formula may be given additional breast milk or formula). When the water supply source is a well or other private source (i.e., not served by a public supply), on-site documentary evidence verifies that the local regulatory health authority has determined the water to be safe for human consumption.	
J31	Mealtime is relaxed and pleasant for children. Staff sit and eat with the children while modeling appropriate behavior and using mealtime as a learning experience.	
J32	Staff take steps and work with families to ensure that food and beverages brought from home:  Meet the United States Department of Agriculture's Child and Adult Care Food Program (USDA's CACFP) food guidelines.  Are labeled with the child's first and last name and the date.  Are refrigerated, if required, and stays cold until served.	
	Are supplemented by food provided by the program, if necessary.  Must be either whole fruits or commercially prepared packaged foods in factory-sealed containers if food is intended to be shared.	
J33	For all infants, and children with disabilities who have special feeding needs, a daily record is kept and documents the type and quantity of food a child consumes and provides families with that information.	

J34	For each child with special health care needs, food allergies, or special nutrition needs:
J3 <del>4</del>	
	The child's health provider offers the program an individualized care plan that is prepared in consultation with family
	members and specialists involved in the child's care.
	The program asks families of a child with food allergies to give consent for posting information about that child's food allergy
	and, if consent is given, then posts that information in the food preparation area and in the areas of the facility the child uses
	so it is a visual reminder to all who interact with the child during the program day.
J35	Staff does not offer children younger than four (4) years the following foods: hot dogs, whole or sliced into rounds; whole
	grapes; nuts; popcorn; raw peas; hard pretzels; spoonfuls of peanut butter; or chunks of raw carrots or meat larger than can
	be swallowed whole. Staff cut foods into pieces no larger than 1/4-inch square for infants and 1/2-inch square for toddlers/2-
	year-olds, according to each child's chewing and swallowing capability.
J36	In regards to food safety:
	a. Liquids and foods that are hotter than 110 degrees Fahrenheit are kept out of children's reach.
	b. Staff discards after one (1) hour any formula or human milk that is served but not completely consumed or is not
	refrigerated.
	c. If staff warm formula or human milk, the milk is warmed in water at no more than 120 degrees Fahrenheit for no
	more than five minutes.
	d. No milk, including breast milk, and no other infant foods are warmed in a microwave oven.
	e. Except for breast milk, staff serve only formula and infant food that come to the facility in factory-sealed containers
	(e.g., ready-to-feed powder or concentrated formulas and baby food jars) and are prepared according to the
	manufacturer's instructions.
J37	The program supports breastfeeding by:
	a. Accepting, storing, and serving expressed milk for feedings;
	b. Accepting milk in ready-to-feed sanitary containers labeled with the infant's first and last name and date and storing
	it in a refrigerator for no longer than 24 hours or in a freezer at 0 degrees Fahrenheit or below for no longer than
	three (3) months;
	c. Ensuring that staff gently mix, not shake, the milk before feeding to preserve special infection-fighting and
	nutritional components in breast milk; and
	d. Providing a comfortable place for breastfeeding and coordinating feedings with the infant's mother.
J38	In regards to infants and toddlers:
	a. The program does not feed cow's milk to infants younger than 12 months, and it serves only whole milk to children
	of ages 12 months to 24 months.
	b. If the program provides food to infants, staff work with families (who are informed by their child's health care
	provider) to ensure that the food is based on each infant's individual nutritional needs and developmental stage.
	c. Bottle feedings do not contain solid foods unless the child's health care provider supplies written instructions and a
	medical reason for this practice.
	d. Teaching staff offer children fluids from a cup as soon as the families and teachers decide together that a child is
	developmentally ready to use a cup.
	acception for any to any a coup.

	e. Teaching staff do not offer solid foods and fruit juices to infants younger than six (6) months of age, unless that practice is recommended by the child's health care provider and approved by families.	
	f. Sweetened beverages are avoided. If juice is served, the amount is limited to no more than four (4) ounces per child daily. (Only 100% fruit juice is recommended.)	
	Infant and Toddlers	
	Gold Seal Criteria	Crosswalk or Comments for Review
J39	Cots, mats, cribs, sheets, and blankets are marked with individual children's names and washed at least once a week.	
J40	Program staff identify choking hazards and remove them from the proximity and reach of children.	
J41	Before walking on surfaces that infants use specifically for play, adults and children remove, replace, or cover with clean foot coverings any shoes they have worn outside that play area. If children or staff are barefoot in such areas, their feet are visibly clean.	
J42	Adults have a comfortable place to sit, hold, and feed infants. Staff place rocking chairs and glider chairs in locations that will avoid injury to children who may be on the floor.	
J43	Infants and toddlers (to age two) do not have bottles while in a crib or bed and do not eat from propped bottles at any time.  They also do not carry bottles, sippy cups, or regular cups with them while crawling or walking.	
J44	Teaching staff who are familiar with the infant feed him or her whenever the infant seems hungry. Feeding is not used in lieu of other forms of comfort.	
J45	At least once daily, in a program where children older than one (1) year receive two (2) or more meals, teaching staff provide an opportunity for tooth brushing and gum-cleaning to remove food and plaque. (The use of toothpaste is not required.) After each feeding, infant's teeth and gums are wiped with a disposable tissue (or clean soft cloth used only for one child and laundered daily) to remove liquid that coats the teeth and gums.	
J46	Cribs are inspected to ensure security. Drop-side cribs are not used.	
J47	To reduce the risk of Sudden Infant Death Syndrome (SIDS):  a. Infants, unless otherwise ordered by a physician, are placed on their backs to sleep on a firm surface manufactured for sale as infant sleeping equipment that meets the standards of the United States Consumer Product Safety Commission. (This indicator is required of all programs with infants.)	
	<ul> <li>Pillows, quilts, comforters, sheepskins, stuffed toys, and other soft items are not allowed in cribs or rest equipment for infants younger than twelve (12) months.</li> </ul>	
	c. The infant's head remains uncovered during sleep. After being placed down for sleep on their backs, infants may then be allowed to assume any comfortable sleep position when they can easily turn themselves from the back position.	
J48	Diaper/Changing area: a. Never located near food preparation areas.	
	b. Changing tables are sanitized after each use.	
	c. If non-absorbent paper liners are used, they must be large enough to cover the changing surface.	
	d. Staff check diapers regularly and change soiled or wet diapers/clothing immediately.	
	e. A closable, foot pedal-operated, plastic-lined trash receptacle is provided in every diaper-changing area.	

	f. Diaper changing procedures are posted at each changing table.			
J49	Bathrooms have barriers to prevent entry by unattended infants and toddlers to two (2) years old.			
0.10	Transportation			
	Gold Seal Criteria	Crosswalk or Comments for Review		
J50	If transportation is provided for children, there should be:			
_	a. Written requirements for drivers.			
	b. A regular maintenance schedule for vehicles and a maintenance log for each vehicle.			
	c. A written pick-up/drop-off routine, including a procedure for accounting for each child.			
	d. Transportation logs, vehicle insurance, liability insurance, and adequate supervision for children being transported.			
	e. Identifying and emergency information for each child available on each vehicle.			
	f. The use of appropriate restraint systems for each child.			
-	g. A first aid kit properly equipped for each vehicle.			
	<ul> <li>Adequate liability and accident insurance coverage for staff and children and vehicle insurance for any owned or leased vehicles.</li> </ul>			
	i. Vehicle alarms are installed in vehicles used to transport children.			
	j. Transportation training for all staff participating in the transport of children.			
J51	Written procedures address all aspects of the arrival, departure, and transportation of children. The procedures:  a. Facilitate family-staff interaction.			
	b. Ensure that all children transported during the program day are accounted for before, during, and after transport.			
_	c. Ensure the safety of all children as pedestrians and as passengers.			
_	d. Address specific procedures for children with disabilities.			
	e. Address special circumstances in picking up children at the end of the day.			
	Supervision			
	Gold Seal Criteria	Crosswalk or Comments for Review		
J52	Attendance is taken when children arrive at the program. The program has in place a system for parents/guardians to sign their children in and out on a daily basis.			
J53	Staff maintain supervision of children at all times.  a. The physical layout of facilities is arranged so that all areas can be viewed by at least one (1) other adult in addition to the caregiver.			
-	<ul> <li>b. Teachers, assistant teachers, or teacher aides are aware of and positioned so they can hear and see any sleeping children for whom they are responsible, especially when they are actively engaged with children who are awake.</li> <li>c. Children are carefully supervised on field trips.</li> </ul>			
J54	Parents are notified in advance of the field trip destination, time of departure, anticipated time of arrival, and time of return. Signed, written permission for individual field trips or blanket written permission is kept on file for each child taking part in a field trip.			
Emergency, Medication, and Illness Procedures				

	Gold Seal Criteria	Crosswalk or Comments for Review
J55	The program has written policies on the routine health care of children, and the health practices of the program to promote wellness and safeguard the health and safety of children and adults. The program has a system for daily health screenings	
	along with a record of the staff person's observations of each child during the screening.	
J56	The program has a written plan for reporting and managing any incident of unusual occurrence that is threatening to the	
	health, safety, or welfare of the children or staff. The program has procedures for staff training on the emergency plan, and	
	the plan is posted in each classroom.	
J57	The program has documentation that it has cooperative arrangements with local health authorities and has, at least annually,	
	made contact with those authorities to keep current on relevant health information and to arrange for obtaining advice when	
J58	outbreaks of communicable disease occur.  Staff maintain areas used by staff or children who have allergies or any other special environmental health needs according	
J30	to the recommendations of health professionals. Areas used by staff or children who have allergies to dust mites or to	
	components of furnishings or supplies are maintained by the program according to the recommendations of health	
	professionals.	
J59	There is a separate area to care for children who are too ill to receive care in the regular group. A program that allows ill	
	children or staff to remain in the program implements plans that have been reviewed by a health professional about (a) what	
	level and types of illness require exclusion; (b) how care is provided for those who are ill but who are not excluded; and (c)	
	when it is necessary to require consultation and documentation from a health care provider for an ill child or staff member.	
J60	The program provides regular vision, speech and language, hearing, and developmental screenings for children either on-	
J61	site or through referral to a community health agency. The program documents annual screenings for each child.	
J01	Complete records for children are updated annually including:  Names, addresses, and phone numbers of parents or guardians; emergency contact information; medical treatment	
	authorizations; medical histories; developmental histories; immunization records; progress reports; parent conference	
	reports; transportation permissions; injury and illness logs; and medication administration logs.	
J62	The program maintains a log of all illnesses, and parents are notified immediately when a child's behavior indicates illness.	
J63	Evacuation drills are practiced at least monthly from all exit locations at varied times of the day. The program has an	
	emergency exit plan showing escape routes from each area.	
J64	At least one (1) person on-site is designated as responsible for health and safety issues.	
J65	90% of the staff are certified in pediatric CPR. At least one (1) certified staff person is always present with each group of	
	children. Written verification of CPR certification is kept on file at all times.	
100	90% of the staff involved in the provision of direct child care are certified in pediatric first aid.	
J66	There is a health/medical consultant available to the program for questions and advice. The health consultant observes	
	program practices and reviews and makes recommendations about the program's practices and written health policies to	
	ensure health promotion and prevention of infection and injury. The consultation addresses physical, social-emotional, nutritional, and oral health, including the care and exclusion of ill children.	
J67	There is a fully-stocked, readily accessible first aid kit in the facility.	
001	There is a rang stocked, readily decession first did kit in the facility.	

J68	Medication is administered to children only when a written order has been submitted by a parent, and the medication is consistently administered by a designated staff member that is educated in proper medication administration. A log is kept and filed of all medication administered.			
J69	Classroom pets or visiting animals appear to be in good health. Pets or visiting animals have documentation from a veterinarian or an animal shelter to show that the animals are fully immunized (if the animal should be so protected) and that animals are suitable for contact with children. Teaching staff supervise all interactions between children and animals and instruct children on safe behavior when in close proximity to animals. Program staff make sure that any child who is allergic to a type of animal is not exposed to that animal. Reptiles are not allowed as classroom pets because of the risk for salmonella infection.			
	STANDARD K.: Teacher-Child Interactions			
	Gold Seal Criteria	Crosswalk or Comments for Review		
K1	Every attempt is made to maintain continuity of relationships between teaching staff and children and among groups of children:  a. The program is organized and staffed to minimize the number of group, teaching staff, and classroom transitions			
	<ul> <li>experienced by an individual child during the day and program year.</li> <li>b. Policies prescribe that each group of children be assigned teaching staff who have primary responsibility for working with that group.</li> </ul>			
	c. Policies encourage keeping infants and toddlers to age two (2) together with their teaching staff for nine (9) months or longer.			
K2	Teaching staff's daily interactions:  a. Demonstrate their knowledge of the children they teach, their families, and the social, linguistic, and cultural context in which the children live.			
	<ul> <li>Support and challenge children's learning during interactions or activities that are teacher-initiated and child-initiated.</li> </ul>			
	c. Are available and responsive to children; encourage children to share experiences, ideas, and feelings.			
	d. Engage in collaborative inquiry with individual children and small groups of children.			
	e. Include listening to children attentively and with respect; teachers speak to each child frequently (by name), make eye contact, and use clear, correct language patterns, and affectionate, supportive words.			
	f. Encourage and recognize children's work and accomplishments.			
K3	Teachers manage behavior by:  a. Helping individual children learn socially appropriate behavior by providing guidance that is consistent with the child's level of development.			
	b. Implementing classroom rules and expectations in a manner that is consistent and predictable.			
	<ul> <li>Responding to challenging, unpredictable, or unusual behavior with their knowledge of children's homes and classroom life.</li> </ul>			
	<ul> <li>d. Observing patterns in children's challenging behaviors to provide thoughtful, consistent, and individualized responses.</li> </ul>			
	e. Convening families and professionals to develop individualized plans to address behavior.			

g. Behavior management includes positive guidance, redirection, and the setting of clear firmits that foster the child's ability to become self-disciplined. Teaching staff anticipate and take steps to prevent potential behavior problems.  K4 Teachers make a concerted effort to understand what children are trying to communicate, and respond sensitively when children are frustrated or angry. Teaching staff actively seek to understand infants needs and desires by recognizing and responding to their nonverbal cues and by using simple language.  K5 Teachers observe children who have challenging behavior and respond quickly and calmly to prevent children from huring each other while showing understanding of the children's needs and feelings. Teaching staff assist children in resolving conflicts by helping them identify feelings, describe problems, try alternative solutions, and identify events, activities, interactions, and other contextual factors that predict childrenging behavior and may contribute to the behavior.  K6 Staff promote pro-social behavior and create a climate of mutual respect for children and their families by treating them with respect and dignity. No adult or child is treated differently because of a disability, or because of his/her race, religion, ethnic origin, or physical appearance.  K7 Teaching staff are consistent and predictable in their physical and emotional care of all children. Corporal punishment, withdrawal of food, rest, or bathroom opportunities; and any form of emotional abuse are prohibited.  K8 Teaching staff avoluate and change their responses based on individual needs. Teaching staff vary their interactions to be sensitive and responsive to differing abilities, temperaments, activity levels, and cognitive and social development. Teaching staff give one-to-one attention to infants when engaging in caregiving routines. Teaching staff engage infants in frequent face to-face social interactions and toddersi2-yeae-rolds' ratious states and levels of arousal.  K8 Teaching staff quic		f. Using positive behavior support strategies.

The contraction of the composition of the contraction of the contracti		d. Detail staff responsibilities, planning time, training, and resources.	
e. Guide the appropriate use of specialized consultants to support the program's goals.			

L2	Hiring procedures ensure that all employees in the program (including bus drivers, bus monitors, custodians, cooks, clerical and other support staff) who come into contact with children in the program or who have responsibility for children:  a. Have passed a criminal-record check in accordance with s. 402.305(2), F.S., and are free from any history of substantiated child abuse or neglect.	
	b. Have cleared a sexual predator check.	
	c. Are at least 18 years old (except vehicle drivers, who must be at least 21).	
	d. Have completed high school or an equivalent diploma.	
	e. Have provided personal references and a current health assessment that attest to the prospective employee's	
	ability to perform the tasks required to carry out the responsibilities of their position.	
L3	The child care program:	
	a. Fosters staff communication through staff meetings, a newsletter, written memoranda, suggestion boxes, etc.	
	b. Provides a written job description for each position and a policy in writing on nondiscrimination.	
	<ul> <li>Provides staff with a staff lounge or separate break area and a staff bathroom. Staff have ways of taking breaks and finding relief at times of high stress.</li> </ul>	
	d. Offers a benefits package for full-time staff that satisfactorily completes their introductory period of employment.	
	e. Has a teacher retention plan.	
	f. Has in place technology-based information management systems that collect and analyze data used to monitor program operation and to inform program improvement.	
L4	Confidential personnel files, including applications with records of experience, transcripts of education, health-assessment	
	records, documentation of ongoing professional development, and results of performance evaluation, are kept in a secure	
	location. Information about children and families is held in strictest confidence by the program staff.	
L5	At least annually, directors, parents, program staff, and other ancillary professionals collaborate on a written evaluation of	
	the program's effectiveness in meeting the needs of children, parents, and program modification. Staff and families have the	
	opportunity to assist in making decisions to improve the program. The program uses this information to plan professional	
1.0	development and program quality-improvement activities, as well as to improve operations and policies.	
L6	The program has a formal merit evaluation program and every staff person is formally reviewed by a supervisor at least once	
	each year. An individual professional development plan is generated from the staff evaluation process and is updated at	
L7	least annually and ongoing as needed.  All teaching staff evaluate and improve their own performance based on ongoing reflection and feedback from supervisors,	
"	peers, and families. Staff add to their knowledge and increase their ability to put knowledge into practice. Staff develop an	
	annual individualized professional development plan with their supervisor and use it to inform their continuous professional	
	development.	
L8	Financial policies and the procedures to implement them:	
	a. Provide evidence of sound fiscal accountability using standard accounting practices.	
	b. Are consistent with the program's vision, philosophy, mission, goals, and expected child outcomes. The program	
	has resources to support the program's vision, philosophy, mission, goals, operation, and expected child outcomes.	
	c. Include an annual operating budget.	
	d. Include at least a quarterly reconciliation of expenses to budget.	

		Include a system that exists to review or adjust the budget if circumstances change.	
	f.	Include the person directly responsible for program implementation (administrator, site manager, program manager,	
		or supervising teacher) in long-range fiscal planning and in operating budget preparation, reconciliation, and review.	
	g.	Include a yearly audit. The program has a current year operations budget and quarterly income and expense	
		statements that show revenues, expenses, and budget compared to actual.	
L9		n staff maintain a current list of child and family support services available in the community based on the pattern of	
		hey observe among families and based on what families request (e.g., health, mental health, oral health, nutrition,	
		elfare, parenting programs, early intervention-special education screening and assessment services, and basic needs	
		s housing and child care subsidies). Staff share the list with families and assist them in locating, contacting, and using	
1.40		nity resources that support children's and families' well-being and development.	
L10	Progran		
	a.	Develop partnerships and professional relationships with agencies, consultants, and organizations in the community that further the program's capacity to meet the needs and interests of the children and families that they	
		serve.	
	h	Are familiar with family support services and specialized consultants who are able to provide culturally and	
	D.	linguistically appropriate services. They use this knowledge to suggest and guide families to these services as	
		appropriate.	
	C.	Encourage continuity of services for children by communicating with other agencies and programs to achieve	
		mutually desired outcomes for children and to guide collaborative work.	
	d.	Identify and establish relationships with specialized consultants who can assist all children's and families' full	
		participation in the program. This assistance includes support for children with disabilities, behavioral challenges, or	
		other special needs.	
	e.	Advocate for the program and its families by creating awareness of the program's needs among community	
		councils, service agencies, and local governmental entities.	
	f.	Use their knowledge of the community and the families they serve as an integral part of the curriculum and	
		children's learning experiences.	
	g.	Connect with and use their community's urban, suburban, rural, or tribal cultural resources.	
	h.	Inform families about community events sponsored by local organizations, such as museum exhibits, concerts,	
	:	storytelling, and theater intended for children.	
	I.	Invite members of the performing and visual arts community, such as musical performers, coordinators of traveling museum exhibits, local artists, and community residents, to share their interests and talents with the children.	
	j.	Engage with other community organizations and groups to cosponsor or participate in cultural events to enrich the	
	J.	experience of children and families in the program.	
	k	Are encouraged to participate in local, state, or national early childhood education organizations by joining and	
	κ.	attending meetings and conferences. Program staff are also encouraged to participate regularly in local, state, or	
		regional public-awareness activities related to early care and education.	
	I.	Are encouraged and given the opportunity to participate in community or statewide interagency councils or service	
		integration efforts.	
	•		

L11	The program leadership:     a. Encourages staff and families to work together to participate in and support community improvement or advocacy projects.     b. Builds mutual relationships and communicates regularly with close neighbors, informing them about the program, seeking out their perspectives, involving them in the program as appropriate, and cooperating with them on neighborhood interests and needs.     c. Is knowledgeable about how policy changes at local, state, tribal, or national levels affect the services and resources available for children and their families.	
L12	The program has written procedures to be followed if a staff member is accused of abuse or neglect of a child in the program that protect the rights of the accused staff person as well as protect the children in the program. Employees and volunteers receive an instruction sheet about child abuse reporting that contains a summary of the state child abuse reporting statute, instructions on reporting and the chain of command, and a statement that they will not be discharged solely because they have made a child abuse report. Suspected incidents of child abuse/neglect must be reported to the Florida Abuse Hotline and appropriate local agencies.	
	STANDARD M.: Family Interactions	Croonwalls on Commants for Devices
	Gold Seal Criteria	Crosswalk or Comments for Review
M1	The program has written policies and procedures that are updated at least annually and:  a. Demonstrate how the program prepares for, orients, and welcomes children and families.  b. Are shared verbally and in writing with families of enrolled children.	
	c. Are available in languages that families use and understand.	
	d. Include parent conflict resolution procedures.	
	e. Include program operations, such as tuition and fee schedules, payment and refunds, and attendance and vacation.	
M2	The program offers a parent display/bulletin board which covers, at a minimum, program description, policy statements, philosophy, schedules, and menus. The program compiles and provides program information to families in a language the family can understand. This information includes program policies and operating procedures.	
M3	Families may visit any area of the facility at any time during the program's regular hours of operation as specified by the procedures of the facility. Nursing mothers have a place to breast feed their children that meets their needs for comfort and privacy.	
M4	The program has a procedure for transitioning children to another program or elementary school. This process includes reviewing children's specific needs, a family needs assessment, and a mechanism to share summary information. An informed consent form will be signed by the parent that identifies specifically what will be shared.	
M5	When program staff suspect that a child has a developmental delay or other special need, this possibility is communicated to families in a sensitive, supportive, and confidential manner and is provided with documentation and explanation for the concern, suggested next steps, and information about resources for assessment. For children with persistent, serious, challenging behavior, teachers, families, and other professionals work as a team to develop and implement an individualized plan that supports the child's inclusion and success.	

M6		er understand the cultural backgrounds of children, families, and the community, program staff (as a part of program	
		es or as individuals):	
	a.	Participate in community cultural events, concerts, storytelling activities, or other events and performances	
		designed for children and their families.	
	b.	Use a variety of formal and informal strategies (including conversations) to become acquainted with and learn from	
		families about their family structure; their preferred child-rearing practices; and information families wish to share	
		about their socioeconomic, linguistic, racial, religious, and cultural backgrounds.	
	C.	Actively use information about families to adapt the program environment, curriculum, and teaching methods to the	
		families they serve.	
M7	Progran		
		Arrange the environment to be welcoming and accessible.	
	b.	Make an effort to speak daily with each child's parents in order to briefly discuss the child's day and report any	
		unusual occurrence or special success.	
	C.	Communicate with family members on an ongoing basis to learn about children's individual needs and ensure a	
		smooth transition between home and program.	
	d.	Share information with families about classroom rules, expectations, and routines not only at enrollment but also as	
		needed throughout the year.	
	e.	Hold parent-teacher conferences at least twice a year and at other times, as needed, to discuss individual children's	
	r	needs, progress, and accomplishments.	
	f.	Inform parents about the program and the curriculum, and about policy or regulatory changes and other critical issues that could potentially affect the program.	
	~	Provide parents with information regarding social services within the community, including health care services,	
	g.	assistance with basic and emergency family needs, and tuition payment alternatives.	
	h	Establish intentional practices designed to foster strong reciprocal relationships with families from the first contact	
	11.	and maintain them over time.	
	i.	Ensure that all families, regardless of family structure; socioeconomic, racial, religious, and cultural backgrounds;	
	1.	gender; abilities; or preferred language, are included in all aspects of the program, including volunteer	
		opportunities.	
	i	Use a variety of formal and informal methods to communicate with families about the program philosophy and	
	٦.	curriculum objectives, including educational goals and effective strategies that can be used by families to promote	
		their children's learning.	
	k.	Facilitate opportunities for families to meet with one another on a formal and informal basis, work together on	
		projects to support the program, and learn from and provide support for each other.	
	l.	Work together with families to plan events. Families' schedules and availability are considered as part of this	
		planning.	
	m.	Use a variety of mechanisms such as family conferences or home visits to promote dialogue with families. The	
	-	program staff ask adults to translate or interpret communications as needed.	
		· × · · · · · · · · · · · · · · · · · ·	

	n. Inform families about the program's systems for formally and informally assessing children's	e progress. This	
		. •	
	information includes the purposes of the assessment, the procedures used for assessment		
	gathering family input and information, the timing of assessments, the way assessment res	uits or information will be	
	shared with families, and ways the program will use the information.		
	o. Communicate with families on a daily basis regarding infants' and toddlers'/2-year-olds' act	ivities and	
	developmental milestones, shared care giving issues, and other information that affects the	e well-being and	
	development of their children. Where in-person communication is not possible, program sta	aff communicate through	
	established alternative means.		
	p. Encourage families to raise concerns and work collaboratively with them to find mutually sa	atisfying solutions that	
	staff then incorporate into classroom practice.	, ,	
	q. Encourage and support families to make the primary decisions about services that their chi	ldren need, and	
	encourage families to advocate to obtain needed services.		
	r. Use a variety of techniques to negotiate difficulties that arise in their interactions with family	members Program	
	staff make arrangements to use these techniques in a language the family can understand.		
	s. Provide basic general information on enrollment procedures and practices, visiting opportu		
	options to help families with their transitions to other programs or schools.	illiles, alla program	
	STANDARD N.: Renewal Process		
	Gold Seal Criteria	Crosswalk or Comments for Review	
N1	The program must apply for accreditation renewal prior to the expiration date of the current accreditation	ation to ensure that a	
	lapse does not occur.		
	a. Program must provide an annual report.		
	Provider must provide licensing inspections, including administrative actions as a result of noncompliance, for the last two		
	vears.	, and the second
