This map was compiled from U.S. Geological Survey quadrangle maps, aerial photography from Oct. 1988, General Land Office plats, road inventories through May 2001, and other map data. This map was compiled using interactive computer graphic techniques.

This map was prepared on the Lambert conformal conic projection, North Zone, Florida System of plane coordinates.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or the facility. For details refer to insets prepared for that county.

In congested rural areas local roads are indicated by a single line only. For details refer to insets prepared for that county.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1990.

In 1990, the population of Gadsden county was 41,058. There are 508 square miles in the county.

No claim is made for the basic cartographic source material within a work or works of the United States Government.

Maps in this series are in the public domain. The maps are compiled and published using public domain and are copyrighted to prevent photocopying and resale for profit.
