## Getting Started

Supervisors of Elections shall **electronically** certify verified candidate petitions to the Division of Elections using the Windows Live program for candidates who qualify with the Division of Elections.

**Candidate petition certifications submitted by mail, email, or fax will not be accepted.**

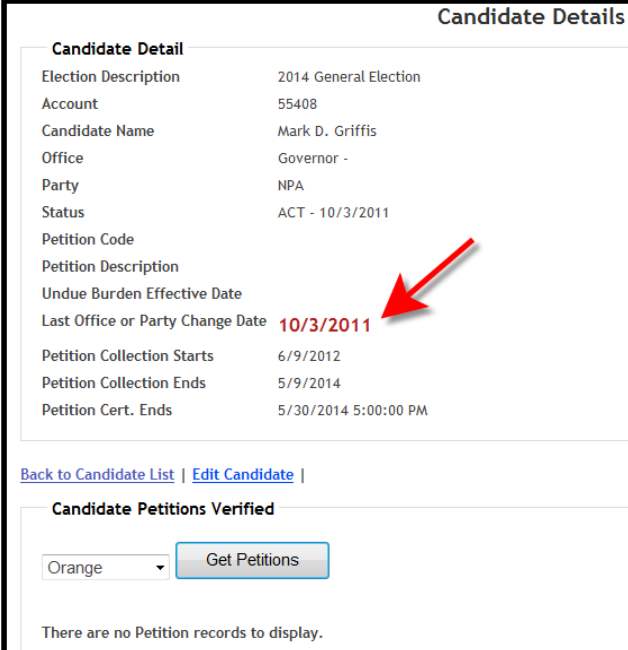

The Candidate Petitions application can be accessed via the Division's SOE Portal at <https://soesecure.elections.myflorida.com/SOEAdminServices/> by clicking on the "Candidate Petitions" link.

All users must have a Windows Live ID and have been granted access to the Candidate Petition application by the county security manager. If additional users are needed, the security manager can grant existing users access to the application or can "invite" new users (on the 'Manage Security' page click on the '**Manual**' link for instructions). For more information regarding Windows Live ID refer to the Windows Live Id User Guide at [http://soe.dos.state.fl.us/Manuals/WindowsLiveID\\_UserGuide.pdf](http://soe.dos.state.fl.us/Manuals/WindowsLiveID_UserGuide.pdf).

## Important to Remember

- A candidate becomes active when a properly executed Form DS-DE 9 is filed with the qualifying officer. Petitions signed and dated before the filing date of Form DS-DE 9 are not valid (except for federal and special district candidates).
- On the **Candidate Details** screen, the earliest date that a candidate can submit valid petitions for the office shown will appear next to **Petition Collection Starts**. However, if the candidate changes his or her office or party then **Last Office or Party Change Date** will be highlighted in **LARGE RED TYPE** and petitions are valid only after this date. It is extremely important that you verify the office, district and party on the candidate petition to ensure that it matches the current office, district and party.

The screenshot shows a web interface titled "Candidate Details". It contains a table of information for a candidate named Mark D. Griffis. The "Last Office or Party Change Date" is highlighted in large red text as "10/3/2011", with a red arrow pointing to it. Below the table are navigation links and a section for "Candidate Petitions Verified" with a dropdown menu set to "Orange" and a "Get Petitions" button. At the bottom, it states "There are no Petition records to display."

- Both valid and invalid petitions need to be reported. If you have a batch of petitions submitted by a candidate that includes both valid and invalid signatures, you will need to enter data for both.
- If you receive petitions from a candidate and the candidate's name does not appear in the Petitioning Candidate List, the candidate will most likely be found in the Non-Petitioning Candidate List. A candidate in non-petitioning status is a candidate who has not already submitted petitions to a supervisor of elections office.
- If a candidate is not on either the petitioning or non-petitioning candidate list, the candidate has not filed as a candidate with the Division of Elections. The supervisor of elections office should contact the candidate and have the candidate call the Division of Elections at 850-245-6280 regarding the need to establish an active candidacy.

## How to Select an Election

1. The application's "Home" screen lists the available elections from which to choose.

## How to Change a Candidate from Non-Petitioning to Petitioning Status

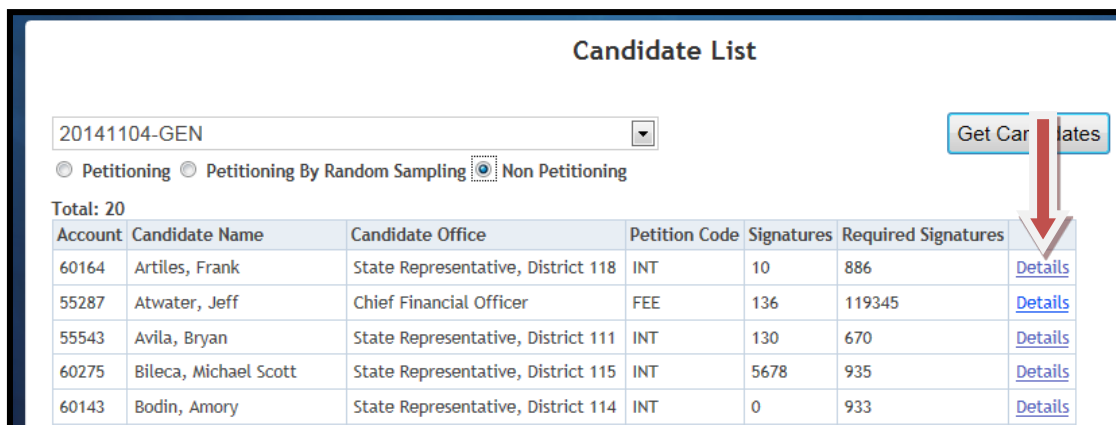

1. If you receive petitions from a candidate who is not already listed on the **Petitioning** list, you will need to change the candidate's status from **Non-Petitioning** to **Petitioning**. **NOTE:** If the candidate is opting to do random sampling, then you will need to contact the Division so it can set the appropriate status and notify all counties involved.
2. On the **Candidate List** screen, click the option for **Non-Petitioning** then click on the **Get Candidates** button.

The screenshot shows the 'Candidate List' interface. At the top, there is a dropdown menu with '20141104-GEN' selected. Below it are three radio buttons: 'Petitioning', 'Petitioning By Random Sampling', and 'Non Petitioning'. The 'Non Petitioning' option is selected. To the right is a 'Get Candidates' button. Below the radio buttons is a table with the following data:
