Department of Children and Families
Department of Juvenile Justice
Department of Education
Department of Health
Guardian ad Litem Program
and
Florida's Office of Early Learning
To Coordinate Services for Children Served by More than One Agency**

I. PURPOSE AND SCOPE

The Agency for Health Care Administration (AHCA), Agency for Persons with Disabilities (APD), Department of Children and Families (DCF), Department of Juvenile Justice (DJJ), Department of Education (DOE), Department of Health (DOH), Guardian ad Litem (GAL) Program, and Florida's Office of Early Learning (FOEL), enter into this Interagency Agreement to coordinate services and supports for children in Florida, and to collaborate on developing necessary local and statewide resources for children being served by multiple agencies. Such services require the coordinated flow of information across multiple child-serving agencies to ensure that policy, procedure, service delivery and resource development are provided in a manner that maximizes the likelihood of positive outcomes. The parties acknowledge that the safety and well-being of children requires a commitment of the agencies to work cooperatively at the state, regional, and local levels to implement this Agreement.

The terms of this Interagency Agreement shall begin on the date of the last signature and shall continue until July 1, 2017. This Agreement shall be reviewed annually by the parties and renegotiated as needed. The Florida Children and Youth Cabinet-level agency representatives (Secretary, Director, or Commissioner), who have the responsibility to determine if renegotiation is necessary, will conduct this annual review. These representatives shall receive and review the reports of local, regional and statewide activity provided by the State Review Team prior to each Children and Youth Cabinet meeting. The Interagency Workgroup lead, or designee, will present information from the local, regional and statewide reports during each Children and Youth Cabinet meeting as determined by the Chair of the Cabinet.

II. PRINCIPLES

1. Services should be family-based and provided in the least restrictive setting. Residential placement should be provided as a last resort with a transition plan to return the child(ren) to the family if possible.
2. Children and families with multiple needs require the integrated coordination and collaboration of services from multiple agencies.
3. Each agency is responsible for paying its equitable share of costs for services consistent with its mandates.
4. Agencies should seek to minimize state costs.

III. ROLES AND RESPONSIBILITIES

The agencies agree to the following:

A. Local Responsibilities

At the local level, personnel from each agency are appointed to represent their agency on a Local Review Team, which will meet on a monthly basis in each local area. In addition to agency participation, the Local Review Team should include representation by local Community Based Care agencies and Managing Entities, as well as other providers as needed. The local area will be defined using DCF circuit. Local school districts will appoint member(s) to the local teams who will be responsible for coordinating education related issues with the appropriate schools. Whenever possible, meetings should take place via telephone or videoconference. Each Local Review Team is responsible for the resolution of case specific issues for children who are receiving services from multiple agencies. The meetings shall not replace an agency's individualized case specific service, support or treatment teams or permanency staffings. Rather, Local Review Teams are intended to be a mechanism to resolve case specific issues that cannot be appropriately addressed within the child and family's individualized service team(s). Local Review Teams must also collaborate on identifying and developing needed local resources for children served by multiple agencies. In addition to regularly scheduled monthly meetings, any agency may call an additional meeting if necessary to assist with case resolution in the event of a crisis or emergency involving a child. **Meetings called to address child specific cases must convene without delay.** If the Local Review Team cannot resolve child specific issues, the Local Review Team shall request assistance from the Regional Review Team.

The Local Review Teams will review each child brought to the attention of their team at least monthly to determine the effectiveness of the support arrangement. Adjustments or changes to the funding strategies and commitments shall occur until the Local Review Team is comfortable that the arrangements are appropriate and can continue to meet the individual child's needs.

The Local Review Teams shall provide a monthly report to the Regional Review Team which includes the number of cases referred to the local team, the number of cases resolved, and the types of issues involved in these cases. The monthly reports will provide information useful to track and identify patterns and prevalent issues which need addressing.

B. Regional Responsibilities

At the region level, personnel from each agency are appointed to represent their agency on a Regional Review Team. Regions are defined in accordance with the DCF regions. The local school districts will designate a regional representative which may include the Seriously Emotionally Disturbed Network (SEDNET) managers or other appropriate representative(s) to serve on the Regional Review Team who will be responsible for coordinating resolution of issues with the local school boards. Each Regional Review Team is responsible for the resolution of cases referred by the Local Review Teams. In addition to regularly scheduled monthly meetings, an agency may call an additional meeting if necessary to assist with case resolution in the event of a crisis or emergency involving a child. **Meetings called to address child specific cases must convene without delay.** If the Regional Review Team cannot resolve child specific issues, the Regional Review Team shall request assistance from the

State Review Team. Whenever possible, meetings should take place via telephone or videoconference.

For state fiscal year 2012-13, the DCF Regional Managing Directors shall convene and host the monthly meetings. In subsequent years, the Regional Teams will select other agency representatives to lead and host the meetings. Participation by executive level administrators in each area, or their designees empowered to make decisions, is required to assure service and funding issues are resolved promptly and efficiently. In addition to agency participation, the Regional Review Team should include representation by local Community Based Care agencies and Managing Entities as well as other providers as needed. Participants will work cooperatively to agree upon appropriately shared responsibilities for services and costs for each child.

The Regional Review Team shall provide a monthly report to the State Review Team which includes a compilation of monthly reports submitted by the Local Review Teams, as well as information regarding the number of cases referred to the Regional Review Team, the number of cases resolved, the types of issues involved in these cases. This information is useful to track and identify patterns and prevalent issues which need addressing.

Regional Review Teams are intended to create a mechanism for the agencies to regularly engage in dialogue to improve their local systems of care and to be a mechanism to resolve case specific issues that cannot be appropriately resolved by the Local Review Teams. Regional Review Teams may also collaborate on developing needed local resources for children served by multiple agencies.

C. State Review Team Responsibilities

At the state level, personnel from each agency are appointed to represent their agency on the State Review Team and to assist with planning, implementation and technical assistance to ensure that this agreement is implemented. The DOE will appoint one member to the State Review Team who will be responsible for coordinating resolution with the local school districts.

The purpose of the State Review Team is to work collaboratively across the necessary state agencies to provide additional assistance to the Local and Regional Review Teams when needed.

The State Review Team will meet on a quarterly basis to collaborate on developing interagency strategies, policies and initiatives to enhance the coordination and quality of service provision. Whenever possible, meetings should take place in person, with available options to participate via telephone or videoconference. The State Review Team shall also receive referrals on child-specific issues from the Regional Review Teams and will work collaboratively across the necessary agencies to resolve placement or service delivery issues. The State Review Team will review and amend practices and policies that may impede the ability to meet the individual needs of the multi-agency children referred by the Regional Review Teams.

Meetings called to address child specific cases must convene without delay. Each agency is empowered to convene a State Review Team meeting at any reasonable time if such action is necessary to access the appropriate services for the child. In instances in

which the State Review Team cannot successfully provide the needed assistance to the Regional Review Teams, or if the case is of a sensitive and potentially high profile nature, members of the State Review Team will take the necessary steps to ensure that their respective executive management is notified of the issue. Agency executive management will continue to work collaboratively across agencies to bring the issue to successful resolution.

Additional examples of activities undertaken at the meetings may include the joint development of substantive or budgetary legislative requests, and targeted resource development responsive to the unique needs of this population of children.

The State Review Team shall provide a quarterly report to the Florida Children and Youth Cabinet which includes a compilation of the monthly reports submitted by the Regional Review Team, as well as information regarding the number of cases referred to the local and regional teams, the number of cases resolved, and the types of issues involved in these cases. This information is useful to track and identify patterns and prevalent issues which need addressing.

IV. EXAMPLES OF ISSUES AND CASES TO BE ADDRESSED BY LOCAL AND REGIONAL TEAMS

Examples of the types of issues to bring to the attention of the Teams may include, but are not limited to:

1. Notification and coordination between agencies for children for competency evaluations.
2. Identification and review of placement or service needs for children waiting for services from any of the agencies listed.
3. Review of resource capacity of local systems of care and joint interagency efforts that may be necessary for the development of needed local resources.
4. Review of local policies, procedures, working relationships and or practice culture or opportunities to enhance the delivery of services to children.
5. Identification of opportunities to improve interagency coordination for children receiving services from multiple agencies.

The Juvenile Assessment Center shall release these children as soon as the DJJ detention screener makes the decision to release.
10. Children in out of home care who are within six months of aging out of care and who have developmental disorders, significant health issues, or who are in the custody of DJJ or DCF.

This can include parent education programs, and family-support services. Medicaid funds the majority of mental health and substance abuse services for children in the child welfare system with services provided through the Child Welfare Prepaid Mental Health plan. Substance abuse services are currently fee-for-services as are autism services for children. The community based services include a range of in-home and office based services. Medicaid funds services for children who are enrollees of the Medicaid program. In most cases, services must be provided through Health Plans. SAMH operates a the Behavioral Health Network which is part of the Children's Medical Services Title 21 program and provides community based services for children with serious emotional disorders. Services are provided through community mental health programs geared to serve children who can benefit from cognitively based therapeutic interactions.	Medicaid provides the majority of mental health and substance abuse services for children. Therapeutic Group Care Services, Behavioral Health Overlay Services (BHOS), and Statewide Inpatient Psychiatric Program (SIPP). Currently only Therapeutic Group Care is provided through managed care in the Child Welfare Prepaid Mental Health Plan.	For Therapeutic Group Care Services, either DJJ, DCF child welfare or DCF SAMH pays for the room and board for the child. Medicaid pays a per diem directly to the group home provider for additional services. For children who qualify for BHOS, DJJ or DCF child welfare pay for the room and board and basic group care. INTRODUCTION

This bibliography consists of most relevant civil right to counsel materials (law review articles, cases, media stories, studies/reports, resolutions, and so on) known to the National Coalition for a Civil Right to Counsel (NCCRC).

A few cautions/notes about the bibliography are necessary:

- Hyperlinks are provided where known, but given the volatility of the Internet, they are not guaranteed to work.
- Not every case involving the civil right to counsel is included. Cases that are included are either particularly significant (often because they involve a subject area that has little case law) or involved NCCRC directly. There are a great many cases involving the right to counsel in termination of parental rights, abuse/neglect, civil commitment, and civil contempt that are not included.
- At times, certain materials may be listed as being on file with NCCRC; to inquire about obtaining these, email info@civilrighttocounsel.org with your specific request.
- With respect to organization:
 - Items related to a particular subject (example: housing, or pilots) will always be found in the bibliography section related to that particular subject, rather than in the section for a particular state, even if the item focuses on a particular state.
 - Items related to a general discussion of the right to counsel in a particular state are located in the state's area, rather than in the "civil right to counsel generally" area.
 - In subject areas with fewer items, all types of items (cases, law review articles, studies, etc.) are mixed together.

For any general questions about the bibliography, please email info@civilrighttocounsel.org.
